# Epidemic Lethargic Encephalitis

Not a Tropic Player, Came From Europe; But

According to the reports, writes a prominent medical authority, spidemic lettingic excephalitis, called by some the "sleep", sickness, was first heard if in France and England about one year ago. At stryi it did not attrict much attention. Many physicians sho saw the early case thought they are due to a form of so-called ptomaine poisoning. Many others thought they are due to a form of so-called ptomaine poisoning. Many others thought it was a peculiar form of pollomyelitis, or infantite paralysis, atta-fund and the same should be suffered to the same should be suffered by the same separate discess to which the infection was located in the brain steel I toward the base. There was infammation of the brain, so they called it encephalitis.

If the most prominent symptom was drowniness, lethargy, alcopiness. Hence the adjective lethargie. It is pread somewhat after the fashion of an epidemic. In consequence of all these qualities it was passed epidemic lethargic encephalitis.

The discape frequently starts with double vision, vertigo, tendency of the upper epident of door, and some difficulty in swallowing. Later the individual becomes drowey. # The Three Great Purifiers

# The Great Blood Purifier

Recommended for the Treatment of Eruptive Skin Diseases, Chronic Catarrh, Rheumatism, Gout, Lumbago and All Conditions Caused by Impure Blood

Two of the greatest purifiers in the world are sun and water, and on both depends life.

As a purifier of the blood, no preparation stands higher than Plough's Prescription C-2223. For years and years this liquid prescription was used by a successful physician in his private practice. He found that this particular formula gave the best results to those of his patients who were suffering from some constitutional blood disease. In time this doctor made quite a reputation both for himself and the prescription which he used; today a large number of bottles are required by druggists to supply the demands of those in need of this meritorious preparation.

In the treatment of Chronic Rheumatism, Catarrh, Scrofula and other similar diseases of the blood. Plough's Prescription C-2223 has given relief to thousands. Despairing, helpless sufferers have secured benefit from this liquid prescription where all other advice and treatment had failed.

If you are suffering from a condition caused by bad blood, or you fear that the poisons and accumulations have never been entirely eliminated from your blood, you should begin now and take the Plough's Prescription C-223 Treatment. This liquid preparation contains no Morphine, Cocaine, Strychnia, Chloral or Mercury; on the other hand, it is composed of certain medicinal ingredients, all of which are well known to medical authorities as being very effective in the treatment of Rheumatic and Blood Troubles. The very best materials and the greatest care are exercised in the preparation of this splendid treatment, so that you can be sure that if you follow the directions given as to its nse, you will be greatly benefited if not permanently relieved.

In the treatment of Chronic Rheumatism, Catarrh, Lumbago, Gout and Sciatica and any condition due to bad blood, it is important that the liver be active. ### THE CHICKENS COME HOME TO ROOST.

THE CHICKENS COME HOME TO ROOST.

Now comes a great howl from the editors of many of the Southern new spapers because certain Northern States are claiming "State's Righ" in their attempt to mility the Eighteenth Amendment to the Federal Constitution (the prohibition amendment).

Some of those editors have suggested accession from the Union by New Jersey and other Northern States if they don't think they can shade by the amendment which midste the Nation day.

The Richmond Verginsan deplores the idea for any State daim to the Constitution of the United States.

Quoting the exact words, we read: "The whole truth is that the rach of no State extends to preventing the ratification and enforcement of a constitutional amendment adopted in the mode provided by the Constitution itself. These alleged lights of the States, which are being urged to save John Rarleycorn in these two small States, can not be considered State rights except by minds which have been unduly influenced by whisky—or invanity."

The above editorial is clear-cut in that it holds that the right of an State extend to preventing the enforcement of a Constitution amendment regularly adoption as silent on the Thirteenth, Font-teenth and Efferfish Amendments to the Constitution?

The State of Virginia is one of those Southern States that is "dodging" behind State Rights the enforcement of a Constitution. The Atlanta Constitution wants the Northern State that unless they want to be independent States, very must not claim States they are the same time, this same State-its operating Jim Crow cars under the guise of State Rights. We are pleased to see something come up that will bring the chickens home to roost to the Virginian. The Atlanta Constitution wants the Northern State that unless they want to be independent States, they must not claim States they are the same time, this same State-its operating Jim Crow cars under the guise of State Rights, and the Atlanta Constitution and herome purchase and the states of the count of the Union and herome purchase

Remember, the chickens come home-to-to-sto.

SOUTHERN REPRESENTATION IN CONGRESS.
There is much talk, about the reduction of the representatives from the Southern States where the Negroes are distranctived, as an examinate of north the thirty people of those States to grant Negro, regarded to the control that the proper and post thing to do in this case is for Congress, as is its duty to enforce the 'Britcenth Amendment to the Telectal Constitution by appropriate legislation. That power is given Congress as a part of-side amendment.

The much Pilk, about reducing Southern representatives seems to us like dodging the issue. The thing we want, and justy so, 'steets in the South for the Negroes.

The muck bils about reducing Southern representatives seems to us like dodging the issue. The thing we want, and justly so, it is not south for the Acpress.
